Summary

Full-stack developer with 13+ years of experience shipping web products end-to-end (frontend, backend, cloud deployment). Strong in React, Node.js, and Python; experienced integrating AI features and building reliable, maintainable systems. Focused on clean architecture, performance, and measurable business impact.

Skills

Languages: JavaScript/TypeScript, Python

Frontend: React, Next.js, Responsive UI, Accessibility fundamentals

Backend: Node.js, Express.js, REST APIs, Auth (JWT), Webhooks

Databases: MySQL / MariaDB

Cloud & DevOps: Google Cloud (Compute Engine, Load Balancing), CI/CD, Linux, PM2

Other: Socket.IO, Payments (Stripe/PayPal), WhatsApp APIs, AI Providers (OpenAI/Gemini)

Selected Projects

ASICO WhatsApp Bot (Node.js, Express, MySQL, Socket.IO) GitHub

- Built a WhatsApp Business CRM for automation and customer support, including inbox/workflow features and real-time updates.
- Integrated WhatsApp Cloud API (webhooks) and WhatsApp Web sessions (QR/Baileys) with token-secured REST endpoints and AI-assisted messaging.

Interactive Resume NextGen (React 19, GSAP, Framer Motion, Three.js, Tailwind) GitHub

- Built an immersive portfolio/resume SPA with scroll-triggered animations, 3D interactions, and modular components for rapid iteration.
- Implemented performance-friendly UI effects and a one-click PDF resume download to improve conversion.

High-Performance Portfolio (Next.js, TypeScript, React, Tailwind, Three.js) GitHub

- Developed a responsive, SEO-ready portfolio with typed content modules and modern UI patterns.
- Added interactive visuals (Three.js background effects) and polished UX behaviors while keeping the codebase clean and maintainable.

Experience

Asico Real Estate LLC Dubai, UAE (Remote)
IT Infrastructure Engineer Oct 2024 – Present

- Build and maintain internal and customer-facing web applications; own features from requirements to deployment.
- Integrate AI-assisted experiences where useful (assistive UX/content flows) while balancing latency, reliability, and maintainability.
- Improve developer velocity through reusable components, consistent API patterns, and production debugging/refactoring.

Pak Affairs Islamabad, Pakistan

Web Developer Jan 2023 – Feb 2024

- Delivered web features end-to-end and supported production troubleshooting; improved stability via refactoring and bug fixes.

ACT Group (Wind Power Plant) Thatta, Sindh, Pakistan

Remote Monitoring & Control Specialist Jun 2020 – Dec 2022

- Monitored real-time turbine operations, analyzed trends, and coordinated maintenance actions in a high-reliability environment.

Federal Investigation Agency (FIA), NR3C Cyber Crime Wing Islamabad, Pakistan

Intern Sep 2019 – Nov 2019

- Assisted with web application security testing and minor incident triage; gained exposure to threat research and malware analysis basics.

Education

University of Sindh Jan 2020 – Dec 2023
BS, Computer Science

Certifications

Implement Load Balancing on Compute Engine (Skill Badge) — ISO/IEC 27001 Information Security Associate
Python Essentials 1 — MS-102 Implement Compliance in Microsoft 365 — Defend Against Threats with Microsoft 365
